

JAMES R LAMB

FULL-STACK DEV | WWW.RUEBUSH.DEV

OBJECTIVE

I am hoping to bring my extensive experience in the association world and transition to a career as a full-stack web developer, with the focus on backend technologies.

SKILLS

Full-stack dev skills: MERN stack: jQuery, HTML5, CSS, MySQL, MongoDB, Express, React, Node.

Project management,
Research, Data Analytics,
Writing/Editing.

EXPERIENCE

MANAGER, DATA, MARKET ANALYSIS, COMPLIANCE • AMSA (AMERICAN MOVING & STORAGE ASSOC.) • 2010 – PRESENT

Led a team to transition AMSA product to an online, cloud-based version, maintained the user database, and provided support to users.

Collect industry data and prepare monthly and quarterly reports for leaders in the household goods moving industry.

Create content for *Industry Trends*, quarterly publication.

Review and screen all new applicants to the association.

Perform annual review of all 4,000 members to ensure continued compliance.

Scrape the web to ensure logo compliance and prevent misuse of association logo(s) and trademarks.

EDUCATION

B.A., HISTORY • 2008 • COLLEGE OF CHARLESTON

FULL-STACK CODING BOOTCAMP • 2019 • UNIVERSITY OF RICHMOND
